- Notes:**
- Factors should be applied to the deferred compensation including revaluation to the date of early retirement. The amount of revaluation should be determined for the relevant period in a manner consistent with Schedule 7 to the Pensions Act 2004 and associated regulations.
 - Factors are shown for age exact at date of retirement.
 - For intermediate ages factors should be obtained by linear interpolation for that Normal Pension Age.
 - If the relevant Normal Pension Age is not an integer the factors for that Normal Pension Age should be obtained by linear interpolation.
 - Ages should be determined in complete years and months rounded to the nearest whole month.
 - Separate factors are available for application to lump sums where the lump sum is a separate entitlement from pension under the scheme.
 - These factors will be reviewed from time to time and may be changed without notice.
